

Broadview Networks Awarded “2005 VoIP Service Provider Award” by INTERNET TELEPHONY® Magazine

High-Quality and Guaranteed Reliability Set Broadview’s Hosted Key System Apart

Rye Brook, NY--December 7, 2005--Broadview Networks, a leading facilities-based communications provider in the Northeast, announced today that it has been named a winner of a “VoIP Service Provider Award” by Technology Marketing Corporation (TMC)’s INTERNET TELEPHONY Magazine. With an extensive feature set and intuitive customer self-administration web portal, Broadview’s Broadspeed Office Suite sets the standard in functionality, service quality and support for small and medium-sized enterprise customers.

“We are honored to receive recognition for our Broadspeed Office Suite service from a well regarded industry source such as INTERNET TELEPHONY,” said Ken Shulman, chief technology officer and chief information officer of Broadview Networks. “Our patented operational systems and processes, coupled with our extensive facilities-based Integrated Voice and Data product offerings and leading-edge VoIP service platform, enable us to provide a unique service quality guarantee on our network.”

Broadview has been providing business-class VoIP services since October 2003. Early adopter Michael E. Bergman, principal of Bergman Bergman Goldberg & Lamonsoff, LLP, commented “In the past year and a half utilizing Broadview’s VoIP service, they provided us with a system that more than exceeds our expectations.” Bergman added, “Not only have we been able to reduce our monthly bills, we have gained a level of options and services that is truly second to none.”

“One of Broadview’s strengths in the VoIP service provider industry is that they provide and manage the entire service, from the customer station set right on through the IP access network, core network, and routing of calls to their destination, ensuring a very professional level of service and support,” said Rich Tehrani, editor-in-chief of INTERNET TELEPHONY. “Backed with a service level guarantee, Broadview’s commitment to provide reliable and affordable hosted VoIP services is clearly evident.”

A full list of the winners will appear in the December 2005 issue of INTERNET TELEPHONY magazine.

About Broadview Networks (www.Broadviewnet.com)

Broadview Networks is a network-based electronically integrated communications provider (e-ICP) serving small and medium-sized businesses in the Northeastern United States. The Westchester-based Company offers integrated communications solutions, including local, long-distance and international voice services; data services; telephone systems; and dial-up and high-speed Internet services using DSL, T1 and T3 technologies. Customers receive a single, easy-to-understand bill and have a primary point of contact for real-time, personal customer care.

About TMC (www.tmcnet.com)

Technology Marketing Corporation (TMC) publishes two print magazines: Customer Interaction Solutions, and Internet Telephony; five digital publications, SIP Magazine, Speech-World, WiFi Telephony Magazine, VoIP Developer, WiMAX Magazine; and the online publications TMCnet.com, Planet PDA Magazine, WiFi Revolution, Alternative Power and BiometriTech. TMC is also the first publisher to test new products in its own on-site laboratories, TMC Labs. TMC also produces The VoIP Developer Conference, Speech-World Conference, IP Contact Center Summit and The Global Call Center Outsourcing Summit. TMCnet.com publishes more than 25 topical online newsletters.

Forward-looking Statement: This press release contains forward-looking statements (i.e., statements that are not historical) describing future plans and objectives. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be incorrect. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this press release should not be regarded as a representation by us that our plans and objectives will be achieved. You should not place undue reliance on these forward-looking statements, which apply only as of the date of this press release.
