

MediaNet Announces Record Downloads and Streaming Usage in December

In 2009 Tim McGraw's "Southern Voice" is Top Selling Album and Ke\$ha Single "Tik Tok" is Top Selling Track

(January 29, 2010, New York, NY) – In the month of December 2009, MediaNet's content network served more than 200 million downloads and over 150 million on demand plays. With the rapid addition of customers to the MN Open platform utilizing the Company's API and Web Components, MediaNet experienced a 124% increase in downloads over the previous December.

Alan McGlade, CEO of MediaNet commented: "MediaNet has not only experienced an increase in customer sign-ups since we introduced our new products in the fall, but now we are seeing the usage grow as a result of a distributed network of premium content providers. The statistics are proving the success of content being served to the end user in a decentralized manner and in a relevant environment."

In addition to the December usage statistics, MediaNet is also unveiling the top albums and tracks based on the number of plays in 2009:
